

3Shape Clear Aligner Studio

The clear advantage

The innovative all-in-one **software solution** that gives you the power to make clear aligners in your own practice.

Rethink your clinic's clear aligner workflow with 3Shape Clear Aligner Studio

Reduce patient waiting time and grow your practice by offering cost-effective and time-efficient same-day start of treatments. Clear Aligner Studio gives you full control over your clear aligner workflow. It's the clear choice for taking your practice to the next level.

Benefits for orthodontists

- Charge more for same-day treatments
- Retain control over your clinic's workflow
- Reduce waiting time and reliance on 3rd parties
- Your business is in your hands.

Benefits for patients

- Get started with treatment same-day
- No need to wait for the first set of aligners
- Treatments can be easily and quickly adjusted
- Personalized treatment plan from your clinic

Let's change dentistry together

3shape

The choice is clear

Control your business

Enhance your competitive edge by offering chairside clear aligner treatments, with full control of the entire workflow in your hands.

Same-day treatments

Give your patients a fast, hassle-free experience with the option of same-day treatment start.

One integrated workflow

Easily scan, design and prepare clear aligner files for in-house production in an integrated guided-workflow.

Increased efficiency

Automated features save you valuable time and increase efficiency during the design process.

Clear Aligner Studio's intuitive workflow

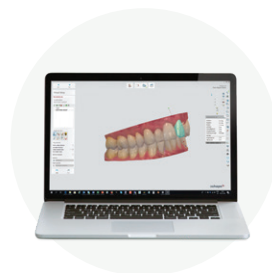

Scan

Digital impression with award-winning TRIOS scanner

Simulate & Sell

Excite patients for increased case acceptance with the TRIOS Treatment Simulator

Plan & Design

Plan and design clear aligner treatments in-house

Produce

Produce clear aligners with open choice of manufacturing equipment

Made possible by TRIOS®

The Clear Aligner Studio digital workflow is made possible by the 3Shape TRIOS® intraoral scanner and offers seamless integration with a wide range of 3D printers. It's easy to get started with chairside clear aligners with a TRIOS in your practice.
